3/16/2016, 1:30 p.m.

W05 SIPs as the Backbone of an Integrated Systems Approach to Building, Part 2

For more information about this session, please visit the session page.

JLC LIVE New England attracts thousands of residential construction professionals from across New England to perfect their skills and build their businesses by networking with exhibiting companies, getting up-to-date practical information in conference sessions, and attending hands-on training at live building clinics.

The JLC LIVE Conference Program brings you in-depth, real world construction education in a classroom style setting. Our expert instructors have worked in the industry for many years and will provide you with first-hand practical information for your business and building needs. With topics for field crew to owners as well as bookkeepers to office managers the session topics touch all levels of your business. JLC LIVE New England will help take you, your business and your employees to a new level of expertise.

The JLC LIVE New England speakers are here to give back to the industry and are available and accessible to attendees. Connect with the speakers at the networking parties, Q & A designated times after each session, centrally located conference information desk or in one of the break areas.
